---

HI Michele--

Thanks so much for getting this to me -- sounds great!!! I'm looking forward to your presentation in January!

I will send you more info re logistics later this year.

Best regards,  
Avis

Healing the Feminine Psyche: Michele Ritterman will speak on ways to help women "break the spell" of dysfunctional relationships with others and with oneself. The loving and generous qualities women have and are encouraged to have socially can sometimes be used against women. Women need special skills to protect these loving and generous feelings.

Michele will draw from her life's work on how families hypnotize their members (Using Hypnosis in Family Therapy), on social contributions to the healing of torture survivors (Hope Under Siege: Terror and Family Support) and especially her latest and most spiritual and spirited book, The Tao of a Woman. This last book contains 100 ways to get unstuck from sticky situations. It is not for women only, but it is especially for women!
